Where is the Library?

- Most of our library resources are available online

- To get to the library home page, go to [http://library.national.edu](http://library.national.edu) or click on the library link from the Faculty Portal or D2L.

- The home page has a search box you can use to get started – you can use it to search for articles, books, or the entire library website.

- If you prefer, you can search using our Subject Guides ([https://national.libguides.com](https://national.libguides.com))
  NAU librarians and faculty have pulled together relevant subject-specific materials within each guide to give you quick access to materials all in one place.

- Using the guides you can find:
  - Journal articles
  - Books
  - Related guides
  - Tutorials, webinars, and videos on using the library and its resources
  - APA information
  - Ask a Librarian reference service

  Want your students to use peer-reviewed and scholarly resources?
  We have lots of those! Ask us for help!
